THE BEST CORSET STAY NOW IN USE.

Dr Strong's Tricora Corset (boned with Tricora Stays) has inaugurated an era of comfort for Ladies.

In its construction, elegance of shape has been carefully looked after.

The peculiar features of the "Tricora" Corset, which afford so much ease in wearing, are the elasticity of its side sections, causing easy adaption in every position which the body can assume, while its inelastic waist and perfection of bust give an elegance of figure to the wearer, and the "Tricora" Stays, while pliable and supporting, are absolutely unbreakable

Leather Point Flat or Diamond Needles, for any machine, 30 cts. per 100 higher.

The Lightning Needle.

Progressive ideas and originality is what the trade is in search of. We are introducing the LIGHTNING NEEDLE and we cheerfully recommend this Needle as the best in actual use to-day. It is tapered from the center to the eye, and owing to this fact, forces itself through the fabric without any effort on the part of the person sewing.

The eyes of 8, 9 and 10 of the Lightning Needle are as large as the 5, 6 and 7 of other brands; this makes finer and better sewing.

Try it and you will have no other.

Trade Mark, Hand Lightning Needle.

Tapered from center to the eye.

Price, $1.25 per M. reg.

THE CLINTON IS GENERALLY CONCEDED TO BE The Best SAFETY-PIN

KNOWN TO THE TRADE.

It is the made of the best material and in the most complete manner.

It is simple in construction and perfect in action.

Its characteristic feature is a shield open on both sides, with a guide to direct the pin point to its proper place; also allowing the point to pass from either side both into and out of the shield with perfect facility. This can be said only of pins made under the Clinton patents. In all other safety-pins possessing any equivalent for a guide, the pin point must leave the shield at the same side at which it enters.

S. P. & Co. Satin Edge Gros Grain All Silk.

The sales of this popular brand of Satin Edge Gros Grain Ribbon have been enormous owing to the extremely low price for a heavy all silk wide Satin Edge Ribbon and makes it intrinsically the best ribbon ever put on the market.

No. 378, Satin Edge Gros Grain.

This is our Middle Grade, which is sold by many houses as their finest, and as we take the manufacturers' earlier production of the quality it has enabled us to make such low prices that it has supplanted everything with which it has come in competition, and is daily meeting with increased sales.

The Best All Silk Satin Edge Gros Grain.

This Ribbon is all the name implies, and our manufacturer has reached the climax in producing the highest grade ribbon ever offered to be retailed at a price within the reach of all. This is an exceedingly heavy ribbon with a raised satin edge, suitable for the very finest trade, and **33⅓ per cent. cheaper than leading advertised brands.**

No. 1901, All Silk Black Only Satin Edge Gros Grain.

This quality of *Black* All Silk Satin Edge Gros Grain is one of our special numbers which we import, and 20 per cent. lower than any other of our staple grades, and enables our trade to meet all possible competition.

Satin and Gros Grain All Sizes.

Satin and Gros Grain Heavy All Silk Full Widths. This is of course a staple and a necessary adjunct to all Ribbon Departments, and sells steadily all the year round.

Block Pattern Z.

Our Block Pattern is all silk, both sides alike. This pattern is a staple fancy and when once adopted its being used for so many various purposes makes it very desirable and a profitable ribbon.

Our Raven Gros Grain in black and colors is closely woven and Extra Heavy Texture Plain Gros Grain Ribbon, while, this grade, has all along been staple. This season there has been an unusually large demand for this style, and aggressive merchants have put in a full assortment which is meeting with rapid sales with the finer trade.

COMPLETE ASSORTMENT OF NO. 2 TAFFETA OR SEAM BINDING.

COMPLETE ASSORTMENT OF SATIN BABY RIBBON.

COMPLETE ASSORTMENT OF NO. 1 PICOT IN HALF AND ALL SILK BABY RIBBON.

The demand for Fancy Neck Ribbon in Crochet Loop and Fancy Edges with combination colorings has been greater than ever before, and the large quantities that are being sold makes this character of ribbon so staple that they have become a necessary adjunct to all well regulated Ribbon Stores.

FANCY RIBBONS.

This stock comprises everything in the way of novelties both in black and white stripe and combinations at popular prices; and for a very small investment you can purchase a stock that will not only tone up your Ribbon Department but will also pay you a handsome profit.

SASHES.

This is a Department which varies materially to style, as location makes a vast difference as to what is worn, and considering that we carry a stock from the cheapest to the very highest grade, adapted to every class of trade, our immense stock will always insure you a choice selection.

VELVET RIBBONS.

In these goods we carry two grades, the GERMANIA and the G. F. List prices are the same in both qualities, viz.:

5	1 50	22	4 65
7	1 95	40	5 55

While cotton back velvets have a steady sale, we find sales on a good quality satin back like our *Emblem* increasing, as it is being used for dress trimming and various other purposes where both sides of the ribbon can be seen. The price also recommends this Satin Back it being not much higher than good cotton back, and as it is our own importation we can make exceedingly low prices.

A. B. C. INITIAL LETTERS.

For marking underwear and household linen, warranted fast colors, 6½ cents per gross.

Patent Ribbon Tray.

Fig. 1.

Fig. 2.

The Cuts shown above represent our Patent Ribbon Tray, which unquestionably furnishes the most convenient method of keeping and displaying Ribbons yet introdnced. Each Tray holds about fifty bolts of Ribbons, and shows the goods on an incline. (See Figure 1.) By touching a spring the legs fall beneath, and the Tray lies flat (See Fig. 2) so that it can readily be removed from a show case. It is made of hard wood, finely finished, and very neat in appearance. One of the greatest conveniences of our Tray is that it is very light, the dealer being able to show the customer fifty bolts as easy as one, and can be placed in show cases, on counters, shelves, or wherever desired. When one piece of Ribbon is removed the others stay in place, thus avoiding the possibility of Ribbons getting out of order. The low price of the Tray recommends it, its cost being only $1.25, net.

Coraline.

Four-in-Hand.

Flexible Hip.

Dr. Warner's Coraline Corsets. The introduction of coraline as a stiffener for corsets, by our firm in 1880, has produced a new era in the corset industry. We use it in all our best goods, as experience has demonstrated its superiority to horn, whalebone, reed, or any other material known for this purpose.

The Coraline Corset is a double-thickness corset of excellent pattern, made of superior corset jean, and heavily boned with coraline. It is the best value for a dollar corset ever placed upon the market.

Dr. Warner's Coraline Corset, white or drab, medium length..... $ 9.50 per doz.
Dr. Warner's Coraline Corset, white or drab, extra long .. .. 9.50 "
Dr. Warner's Black Coraline Corset..... 9.50 "
Dr. Warner's Summer Coraline Corset (Cold Wave)..... 9.50 "

Dr. Warner's Four-in-Hand and Flexible Hip Corsets.—The Four-in-Hand has gained steadily in popularity during the past five years, and is a great favorite with many ladies. It is long in front and short on the hips, and for that reason fits a greater variety of figures than any other corset made.

The Flexible Hip Corset is stiffened with horn upon the sides running around the corset. It is a favorite with ladies whose corsets "break down" over the hips.

Dr. Warner's Coraline Four-in-Hand, white or drab..... .. $9.50 per doz.

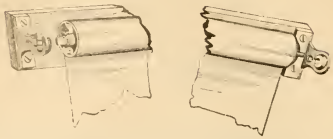
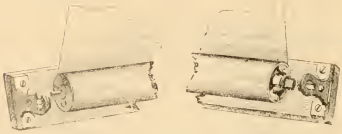
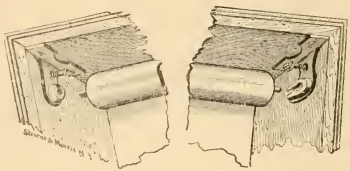
Patent "Efficient" Bracket.



Cut No. 1 shows the bracket used in the ordinary way.



Cut No. 2 shows how, by merely putting the spear end of the roller in the round-hole bracket, it becomes practically no-pawl roller as the spear lies on its side and the pawls cannot engage.



Cut No. 3 shows it used as an inside bracket by putting the base of the bracket to the ceiling, with the round-hole bracket and spear end of the roller on the left.

The same cut shows it used as a ceiling bracket by screwing the base of the bracket to the ceiling, instead of fastening the bracket to the side of the window-frame as in the inside bracket.

THE "EFFICIENT."

This cut shows the patent "Efficient" bracket full size.

FRAMES.

MADE UP IN THE MOST ARTISTIC DESIGNS.

Our line of Fancy Metal Mirror Frames, Easels, Playing-Card Cases of Silver Plate and White Metal, both ornamented and carved, are the product of the well-known NEW YORK METAL SPECIALTY CO. of New York City, whose productions are sold to the jobbing and export trade. These specialties, especially photograph frames, are made of plain, fancy, and ornamented twisted wire or open filigree work, at a range of prices within the reach of all.

The silvered articles are covered with a preparation which prevents any discoloration so common even with sterling silver, and gives satisfaction to the most exacting buyer. The prevailing fashion for photographs makes these goods most desirable for holiday gifts, and the line has received most earnest attention at our hands. The prices range as follows:

YARN DEPARTMENT.

In manufacturing woollen and worsted yarns and in order to obtain a volume of business it is essential to adopt your grades and the number of skeins to the pound, so they can be retailed at popular prices and give the consumer good value and assure the merchant a handsome profit.

The enormous quantities of all kinds of knitting material that we have sold, as well as the universal satisfaction they have given, are evidence that we have struck the *key-note* of the popular demand.

Star Domestic Saxony for a low-priced article has no equal for evenness and durability. Put up 12 skeins to lb. in 1 lb. (12 oz.) boxes.

Saratoga Saxony is a combination of Astrakan and fine domestic wool put up 20 skeins and 16 oz. to the pound, the price recommending it to the trade, making it a popular 10c. Saxony and intrinsically the best ever put on the market. This grade is our own manufacture, and the outcome of our long experience as to the wants of the yarn trade. The sales are enormous, and where once introduced there is nothing that enters into competition with it.

Persian is a strictly imported high grade Saxony, each skein wrapped in tissue paper, and where warmth and a soft silk finish is required, we can recommend this grade to the trade as the most superb article in the market. Put up 12 skeins to lb. (12 oz.), 1 lb. boxes.

Electric Spanish Worsted, not the cheapest, but the best Spanish in the market; made of carefully selected domestic combing wool sorted for quality and length, of staple particularly adapted to all the qualities necessary in a good Spanish worsted. The Gotham Spanish is a genuine cable twist yarn, a feature of great importance in all fingering or hand-knit yarns. It has a beautiful lustre and more yards to the pound than any Spanish made. The quality of colors used in dyeing the Electric Spanish is the very best, and this important fact and the general excellence of the yarn have made the sales of Electric Spanish greater than any other grade of Spanish made.

We carry "Electric" in the following colors: Scarlet, Cardinal, Garnet, Wine, Maroon, Fawn, Rose, Pink, Olive Green, Olive Brown, Cream, Baby Blue, Med. Blue, Royal Navy, Slate, Drab, Black and White.

A Spiral-Spun Worsted, made of the longest and finest wool procurable, combining all the properties of wool with the lustre and beauty of silk. This yarn is well adapted to knitting and crochet work. In the latter particularly the beauty and peculiarity of A. J. Cameron & Co.'s Coral Yarn will be appreciated. For fine hosiery and mittens it is unsurpassed. Will outwear any fine yarn made, and is at all times brilliant and grassy, the lustre increasing as the article is worn. Cheap silk costing more than twice as much will not look as well after being worn a short time, while A. J. Cameron & Co.'s Coral Yarn with wear improves in lustre and at all times is more elastic, more comfortable and warmer than silk. The want of elasticity in silk mittens makes them hard to put on or take off. This difficulty is obviated in mittens made of A. J. Cameron & Co.'s Coral Yarn. The great success of this yarn has called forth several cheap imitations, put upon the market as coral yarns. Ask for A. J. Cameron's Coral Yarn and accept no other. Each skein of the genuine coral yarn bears a ticket with the name A. J. Cameron & Co.'s Coral Yarn.

This Knitting Worsted, now so well known, is acknowledged to be the best German knitting worsted made. The quality of the worsted and the line of colors admit of no competition, and the consumer seeking for the best and most economical worsted that money will buy, must select the XX worsted. There are cheaper worsteds made, many of them; we make several grades ourselves to meet competition as to price, but the consumer who buys worsted intelligently will consider that the worsted that knits him the greatest number of articles is the cheapest worsted to buy. One pound of German knitting worsted contains 1,820 yards, while the cheaper grades run as low as 980 yards per pound, and, owing to the coarse wool used, the thread is no heavier in appearance. The XX worsted, therefore, will knit more stockings, mittens or other articles than cheaper grades, and the goods will be warmer and handsomer. The name of the XX German knitting appears on a paper label in red ink, found in each skein. None genuine unless so marked. Quality and color of each skein warranted.

Our **Seville Germantown,** on account of its being put up 16 skeins to the lb. and sold in the closest sections at 10c. per skein, paying the retailer a handsome profit, has concentrated the trade on this character of yarn to one grade, thereby supplying the demand for the cheapest and the best imported goods. SHAKESPEARE ON SHADE ROLLERS.

SOLILOQUY ON THE "EFFICIENT."

"Oh wonderful, wonderful, most wonderfully wonderful, and yet again wonderful."

As you Like it.—Act III, Scene 2.

"And I as rich in having such a jewel, as twenty seas: if all their sands were pearl, the water nectar and the rocks pure gold."

The Two Gentlemen of Verona.—Act II, Scene 4.

Shakespeare must have known that there was nothing that could hold a candle to the "Efficient" shade roller, for he says:

"How far that little candle throws his beams, so shows a good deed in a naughty world."

Merchant of Venice.—Act V, Scene 1.

That's what it's for, William—that's what it's for. To enlighten people all over the world as to its merits, and its superiority over all other shade rollers.

Nevius & Haviland's Efficient Rollers are sold by the three largest dealers in upholstery in New York City. The largest distributors of shade rollers in Chicago. The leading upholstery house in St. Louis. By prominent firms in Boston, Washington, Detroit, Cincinnati and San Francisco. The leading upholstery dealers in Kansas City, Denver, Omaha, St. Paul and Minneapolis, and by live and progressive dealers in all of the intermediate cities in the United States and largely throughout the North. There are no other shade rollers made as good as as the "Efficient." Sold only to the trade by
